Reasons for Allowance

Applicant's amendments have overcome the claims objection and the rejections made under 35 U.S.C. 102 and 103. Consequently, the said claims objection and rejections are withdrawn. Also, Applicant's arguments, see Remarks, pages 10-14, filed 11/17/08, with respect to claims 1, 7, 8, 13-16, 18-28 have been fully considered and are persuasive.

The following is an examiner's statement of reasons for allowance: The examiner has found claims 1, 7, 8, 13-16, 18-28 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to a compound or composition according to a given formula I and a method of using said compound or composition. However, the compound or composition of the present invention possess structural differences to the compounds of the prior art and these differences are not suggested in the prior art, nor are obvious over the prior art. For example, the compounds of the instant invention contain ring structures and substituents that are different to the compounds of prior art and, the method of using said compound or composition is not suggested in the prior art and is not obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
